## BIOGRAPHY

Chris Womack delivers sharp, dry observational humor with a professor's precision and a comic's edge. He has appeared on Don't Tell Comedy, performed at Roanoke Comedy Festival, and taken the stage at the annual Cave Comedy Fest at Melrose Caverns, where comedians perform inside a live cavern.

A winner of the Comic Genius comedy competition featured on YouTube, Chris performs weekly at the Massanutten Resort Comedy Club and regularly throughout the Mid-Atlantic and beyond. He has shared stages with national touring headliners and brings a controlled, intelligent presence to the stage.

By day, he is a James Madison University Kinesiology Professor of over 30 years — a role that fuels his clever takes on everyday absurdities. Chris performs solo, as part of The Funny Womacks duo, and co-teaches stand-up comedy classes.
